MEETS
EVENTS & MEDIA SERVICES

Welcome

We are so excited to have you all here to participate in our 10th international conference of the High Institute of Public Health (HIPH), Alexandria University "**Alex Health 2022**".

This year, **Alex Health 2022** will be held on 27th & 28th November, Alexandria, Egypt.

The High Institute of Public Health (HIPH), Alexandria University is the oldest public health academic institute and by far the largest in the Middle East since 1956. Many national and international agencies are supporting this conference.

Alexandria, the beautiful charming city of the Mediterranean with its great history, will be hosting this important conference.

Over two days, oral presentations, posters, plenary lectures, debates and round table discussions will be exploring public health research and practices in Egypt and worldwide. The conference will provide a chance for activities and touristic city sightseeing.

On behalf of the **Alex Health 2022** team, I have the pleasure to invite professors, researchers, health care providers, professionals and students interested in the different areas of public health, to submit abstracts in novel topics related to our current theme: "**Telehealth**" specifically.

Finally, we wish you a successful, fruitful and memorable conference and we are looking forward to seeing you all in our public health gathering in Alexandria.

Prof. Heba El-Kady

Conference Chairperson
